Make Believe

Burning Heads

I feel like I'm lost somewhere in the middle of nowhere
And when I open my eyes, I got no place to stare
Maybe I woke up too early, so I go back to bed,
My body's weak and I'm miles away
I won't go to work today, today is like just yesterday
And I ain't gonna take that winding way to get my own happiness
'cause I'm insane and my chains are hurting me
I think I'm tired of this, Tired of this ...Living in a world of make believe,
That's the way you make things go
And I ain't gonna let you get meSo I quit and I return to my self-made universe
Cause you're not in it
Without your pills and your chemicals my pleasure is all
You pretend to be free in this beautiful world,
I leave it all to you
You can destroy it, break it in twoLiving in a world of make believe,
That's the way you make things go
And I ain't gonna let you get meI stop working and start running, but I run from you
I stop running and start dreaming, but I dream of you
I stop dreaming and start flying, now I'm flying over youLiving in a world of make believe,
That's the way you make things go
And I ain't gonna let you get me
