

Christmas Eve

[Ringo Starr](#)

It's Christmas and you're not here
The snow is falling down, like my tears
I see your presents by the tree
I can't believe you're not with me
On Christmas, Christmas eve
It's Christmas with stars above
How many times has it been said
A time for love?
And underneath the mistletoe
I'm standing here all alone
On Christmas, Christmas eve
I hear your voice, I see your smile
You were my Christmas song
But now you're gone, now you're gone
It's Christmas, it seems so long
The lights are all around the tree
But not turned on
I saw your footprints in the snow
I'd never thought you'd really go
On Christmas, Christmas eve
