

# Throw Me Away

[Charlie Landsborough](#)

Candle Lights, Snow white winter is clear as crystal  
Stands like a dream that's frozen forever in time  
Log fire warms me as the sun retires for another day  
Wrap me up in a dream of you and throw me away  
Dark eyed even tide  
Mellow mantel is fallen  
And on the silence the nightingale, sings his song  
Stars blink from a sky of Indian ink  
While I kneel and pray  
Wrap me up in a dream of you  
Throw me away I'll sit and listen as the clock ticks by  
Holding you inside my mind  
I can't believe that's times have forgotten how to fly  
Since you left my worlds behind  
Silver haired  
Mother stares into the hills of her memory  
Old smiles soften by years of Living and Love  
She knows where the river of my longing flows  
When she hears me say  
Wrap me up in a dream of you  
Throw me away She knows where the rivers of my longing flows  
When she hears me say  
Wrap me up in a dream of you  
Throw me away Wrap me up in a dream of you  
And throw me away Throw me away (x3)
