Flag

PRIMEADDICT

You want me, and keep me here
You call us close, to dispel your fear
You paint in the corner of peace with your hands
As the water flows north miles west
They come moving
Raising up their hands
As the thunder calls, we?ll come to
The straightest tree
What flag are you? Are you flying?
I?ve seen you come from miles
I?ve seen you come from miles
Great father in ...says well be
Only white like ...used
Only as long as the day hold a blessing
Will we pass

He offers to us our own hands
And the lines upon our lands
Dark soldiers, dark soldiers
Don?t ignite the led
What flag are you? Are you flying?
I?ve seen you come for miles
I?ve seen you come for miles
What flag are you? Are you flying?
I?ve seen you come for miles
I?ve seen you come for miles
Oh, will you hurdle to the trees?
And holding in both hands
The center we will be together
As one we will stand
Frozen tears, frozen tears
May lead into the frozen tears we lay
