## Hothotmails

[Intro: Snoop Dogg]Check this out baby girl  
There's a few things I wanna explain to you, ya know  
Now if you gon' be with me we gotta vibe together  
    Now that word means a whole lot to me  
    Now what I mean by that, it's simple as this  
        You gotta open up your head  
        Matter of fact, open up your mind  
        And let me put my head inside of your head  
            So you can think like me  
            and move like me and vibe like me  
            You know what I'm talkin' bout?  
[Chorus: Snoop Dogg]You can smoke, you can roll  
    You can move, you can groove  
    You can drink, you can ride  
    You can vibe with a pimp  
    You can bounce, you can tip  
    You can slip, you can ride  
    You can shake, you can slide  
    You can vibe with a pimp  
[Kurupt]You can vibe with a pimp, ride with a pimp  
    Dip when I dip, come by my crib  
    Post with a playa, let me show you what it is  
    I don't really want too much mama, just a little bit  
I came to give you want you want mama, wait a little bit  
    Got this place I gotta get to, I'ma tell you what it is  
    You can roll, you can post, we can ride up on the coast  
        Just post with your folks, just vibe with a pimp  
        See what I see, she said I'm G'd up, I said I'm guilty  
Now run up in the spot girl and throw on somethin' silky  
    Bad to the bone, pure redbone  
Vibe with a playa, and show me what you're made of  
    Ridin' with the all chrome D's on the Brougham  
    Out to get the paper, sparklin' like my Dana's  
        Wide with the all gold hundred-spokes on  
        G'd as I wanna be, can't you see what I see?  
[Chorus: Snoop Dogg]You can smoke, you can roll  
    You can move, you can groove  
    You can drink, you can ride

You can vibe with a pimp  
          You can bounce, you can tip  
          You can slip, you can ride  
          You can shake, you can slide  
          You can vibe with a pimp  
[Daz Dillinger]C'mon and ride with a gangsta mack  
          Pimp, dip, slide with this  
          C'mon Snoop git, blaze that shit  
          We got these hoes mesmerized  
          Hypnotized, blowin' they mind  
          A real nigga like this hard to find  
Fuck a smile, give me some money bitch, give it to daddy  
          In a 645 to a '7-trey Caddy  
          Got 'em ringin' my phone, they won't leave me alone  
          Stand on it just like a rock, I'll break 'em hard as a stone  
          Conversation, illustration, plus a whole lot of patience  
          I'll have yo' bitch ass sittin' at the bus station  
It's pimpin', my money hold me down, I ain't limpin'  
          Everything I got is on these motherfuckin' bitches  
I can gorilla and smooth mack her, dick will slap her  
          Professionalism, bitch this ain't no actor  
          Realer than real, it's hard in the field  
          You got to have skills to pay a pimp's bills  
[Chorus: Snoop Dogg]You can smoke, you can roll  
          You can move, you can groove  
          You can drink, you can ride  
          You can vibe with a pimp  
          You can bounce, you can tip  
          You can slip, you can ride  
          You can shake, you can slide  
          You can vibe with a pimp
