I Get Up

Julian Lennon

You said you'll come on over and ah, love me, baby
You said you're gonna come and be mine
But if you're ever, ever gonna leave me, baby
You know, I'm gonna have to pull in the lineI hope you're never ever gonna lie to me, baby
'Cause if you do I'll certainly die
I wanna just love you and hold you, baby
And live in harmony till we die'Cause I love you, baby
And I want you, baby
I get up, I get down
But it's only when you're aroundI get high, I get low but it only goes to show
I'll never ever, ever never leave you baby
I'll never ever leave you behind
And if you're ever clever try and leave me, baby
You know I'll never let you goI find I found you feeling finer
Since the day you left the diner
And shared your life and love with me
Still I know I'll make you happy
If you let me be your Pappy
I'll love you till I know you're mine'Cause I love you, baby
And I want you, baby
And I need you, baby
'Cause I love you, babyI get up, I get down
But it's only when you're around
I get high, I get low
But it only goes to showI get up, I get down
But it's only when you're around
I get high, I get low
But it only goes to showYou said you'll come on over and ah, love me, baby
You said you're gonna come and be mine
But if you're ever, ever gonna leave me, baby
You know, I'm gonna have to pull in the lineI hope you're never ever gonna lie to me, baby
'Cause if you do I'll certainly die
I wanna just love you and hold you, baby
And live in harmony till we die
'Cause I love you, baby and I want you, babyI get up, I get down
But it's only when you're around
I get high, I get low
But it only goes to showI get up, I get down
But it's only when you're around

I get high, I get low
But it only goes to show
