

Here With Me

Captain Everything!

When you're here with me, I know I don't need nobody else
To cling onto, please don't leave me here all by myself.
Now you're not here, I still need you just as much as then,
I'll be here, well just don't leave me on the shelf. Sometimes I sit and think, if I were someone else
Would I still feel the same about myself?
Sometimes I sit and wonder why it is
I can't move forward? I just don't move at all. Sitting here staring at my ceiling,
I've got that sinking feeling,
Like I can't seem to dry my eyes. When you're here with me, I know I don't need nobody else
To cling onto, please don't leave me here all by myself.
Now you're not here, I still need you just as much as then,
I'll be here, well just don't leave me on the shelf. Sometimes I sit and think, if I were someone else
Would I still feel the same about myself?
Sometimes I sit and wonder why it is
I can't move forward? I just don't move at all. Sitting here staring at my ceiling,
I've got that sinking feeling,
Like I can't seem to dry my eyes. My eyes. Sometimes I sit and think, if I were someone else
Would I still feel the same about myself?
Sometimes I sit and wonder why it is
I can't move forward? I just don't move at all. Sitting here staring at my ceiling,
I've got that sinking feeling,
Like I can't seem to dry my eyes. My eyes.
