

# We're Always Saying Goodbye

Diana Ross

Stranger before  
Lovers and then  
People become  
Strangers again All things born  
Knowing they'll die  
We're always saying goodbye Children make friends  
Holding them near  
People change times  
Friends disappear Life must go on  
Children must cry  
We're always saying goodbye Rivers go on and on  
The sun always shines  
The people just run out of time Why are we here  
Where do we go  
Just when we've learn the little we know  
Life , love and dreams  
End with the sigh  
We're always saying goodbye Rivers go on and on  
The sun always shines  
Why do people just run out of time Why are we here  
Where do we go  
Just when we've learn the little we know  
Life , love and dreams  
End with the sigh  
somebody somewhere knows why We're always saying goodbye
