

# Awaken

## Yes

High vibration, go on to the sun  
Oh, let my heart dreaming  
Past a mortal as me, where can I be?Wish the sun to stand still  
Reaching out to touch our own being  
Past a mortal as we, here we can be  
Here we beSuns, high streams through awaken in the mass touch  
Gentle, strong, dreams begin here awaken  
Awaken in the mass touch, awaken in the mass touch  
Awaken in the mass touchStar, song, age is awaken in the mass touching  
Awaken in the mass touching  
Awaken in the mass touching  
Touching, touching, touchingWorkings of man set to ply out historical life  
Re-regaining flower of the fruit of his tree  
All awakening, all restoring youWorkings of man, crying out from the fires set aflame  
By his blindness to see that the warmth of his being  
Is promised for his seeing, his reaching so clearlyWorkings of man driven far from the path  
Re-released in inhibitions, so that all is left for you  
All is left for you, all is left for you  
All this left for you, nowMaster of images songs cast a light on you  
Hark through dark ties that tunnel us out of sane existence  
In challenge as direct as eyes see young stars assembleMaster of light, all pure chance  
As exists cross divided in all encircling mode  
Oh, closely guided plan awaken in our heartMaster of soul set to touch all impenetrable youth  
Ask away that thought be contact with all thats clear  
Be honest with yourself, there's no doubt, no doubtMaster of time setting sail over all of our lands  
And as we look forever closer  
Shall we now bid farewell, farewell?High vibration, go on to the sun  
Oh, let my heart dreaming  
Past a mortal as me, where can I be?Wish the sun to stand still  
Reaching out to touch our own being  
Past a mortal as we, here we can beLike the time I ran away, turned around  
And you were standing close to me  
Like the time I ran away, turned around  
And you were standing close to me
