

All That You Are (X3) [Boomtang Extended Remix]

Econoline Crush

If I said it, I meant it
I'm not really demented
I'm just saying it's been said again and again
Not that I'm all that grounded
I'm already dumbfounded
I'm a liar believe me, baby
Well that's all you are
You're just one shining star
Maybe everything's changed
And maybe I stayed the same
What does it matter to me now, anyway
If I ever regret it
