

# Enough Rain

[Melissa Etheridge](#)

CHORUS / Haven't you had enough rain / Have you been drowning in your favorite pain / Don't go back to sleep stay awake here with me / Haven't you had enough rain / Where are you going / When there's nowhere to run and nothing to hide / Who are you fooling / The fear that surrounds you comes from inside / CHORUS / Are you believing / That someday is over and dreams are all gone / Come on believe me / Life is a voice and you are the song / Honey, come on / Don't let go keep breathing / You can hold on / The sky will stop bleeding / Just like the pain / Haven't you had enough rain / CHORUS
