When All Else Fails

Transportation in Canberra

I'm searching for something
That's so hard to find
I'm falling down mountains
I can't seem to climbI'm driving down highways
That don't have an end
I can't find the sign
Am I lost againWhen all else fails
You will be there
When all else fails
I'll hold on to youWhen all else fails
You'll still be there
When all else fails
I'll turn to youI'm selfish and jealous
I'm proud and a fool
I'm walking with strangers
And strangers are cruelI'm praying to Gods
That I don't even know
I'm ready and willing
Where do I go?When all else fails
You will be there
When all else fails
I'll hold on to youWhen all else fails
You'll still be there
When all else fails
I'll turn to youI know I might be mistake
But it's the chance I'm taking
I'm walking on the wireI have been burned by temptation
I'm drawn into that fire
I'm lost in my desireWhen all else fails
You will be there
When all else fails
I'll hold on to youWhen all else fails
You'll still be there
When all else fails
I'll turn to youWhen all else fails
You will be there
When all else fails
I'll hold on to youWhen all else fails
You'll still be there

When all else fails
I'll turn to you
