Lose You Again

Samantha Mumba

I don't wanna lose you again
I just wanna be by your side forever
I don't wanna lose you again
I just wanna be close to you my babyI was out of my mind
thought you was seeing someone else
spying and finding
a way to get you back again
do you remember the things i did to win your love
my heart rejoiced when you finally came back to me
Nothing's ever gonna change how i feel
I keep telling you my love is for realI don't wanna lose you again (I don't wanna lose you baby)
I just wanna be by your side forever
I don't wanna lose you again (I don't wanna lose you baby)
I just wanna be close to you my babyWhenever I'm down, I think of someone special
I know i have found, the man that i've been searchin for
The moment I lost you, the day you went out of my life
I was so afraid that i'd never see your face again
Nothing's ever gonna change how i feel (change how i feel)
I keep telling you my love is for realI don't wanna lose you again (I don't wanna lose you baby)
I just wanna be by your side forever
I don't wanna lose you again (I don't wanna lose you baby)
I just wanna be close to you my babyI don't wanna lose you baby
Yeah ooooooo stand by my sideI don't wanna lose you again
I just wanna be by your side forever
I don't wanna lose you again (I don't wanna lose you baby)
I just wanna be close to you my baby (never gonna lose you)I don't wanna lose you again (baby baby forever)
I just wanna be by your side forever (be by your side)
I don't wanna lose you again (forever i don't wanna lose you again)
I just wanna be close to you my baby (close to you baby)I don't wanna lose you again (I don't wanna lose you baby)
I just wanna be by your side forever
I don't wanna lose you again (I don't wanna lose you baby)
I just wanna be close to you my baby
