

Goodbye Lonesome (Hello, Baby Doll)

Johnny Horton

I've been here for a long long time waitin' all alone
Waitin' here in this old house by the telephone
Sittin' in this same old chair lookin' out to blind
Now there ain't been a day gone by that she ain't on my mind
Goodbye lonesome, hello baby doll
Goodbye lonesome, you almost drove me wild
Well, I feel electricity on the line
'Cause she's done told me she's mine oh mine
Goodbye lonesome, hello baby doll
When she is here I'm tellin' you, we're gonna celebrate
And all those hugs and kisses you couldn't calculate
When she holds me I can't explain the way I feel inside
Goodbye you old lonesome, I got myself a bride
Goodbye lonesome, hello baby doll
Goodbye lonesome, you almost drove me wild
But I feel electricity on the line
'Cause she's done told me she's mine oh mine
Goodbye lonesome, hello baby doll
