

# Set the World on Fire

## Annihilator

I shall give the vision of what is meant to be  
All you have to know is that I hold the master key  
I know your weakness and I can see your pain  
You scream deliverance and I will pave the way I'll set the world on fire  
It's your time to retire  
Because sooner or later  
You're going to meet your maker I'll give you what I think is best and what I know is right  
And those who follow me, I'll give you strength and might  
You pledge allegiance and I'll prevent your fall  
I am your leader and know I'll rule you all I'll set the world on fire  
It's your time to retire  
Because sooner or later  
You're going to meet your maker Your people are dying  
Your people are crying out  
That you must go down  
Down, down, down, you must go down  
Let's take them down  
Now that it's over and all is said and done  
You've turned the sky to black, no sign of the sun  
Do you think the free world is going to wish you well  
No god can save you now, you're going straight to hell We've set your world on fire  
You are now retired  
Because sooner or later  
We have to meet our maker  
Set the world on fire
