

# In The Beginning

## The Stills

This story ends  
In Bloodshed  
The face I love  
The city I'm from  
The persons I've met  
The persons I've let down  
But a hero never turns around It's nice to see you're moving on  
I know it's hard to carry on  
But it's just never what it was  
In the beginning  
In the beginning How did this start?  
And where did we begin  
In a ball of fire  
And stars and suns  
And that brings me here, now  
Where my heart's caving in  
A tornado whips in around  
The poles  
And it's raining It's nice to see you're moving on  
I know it's hard to carry on  
But it's just never what it was  
In the beginning  
In the beginning
