Lucifer

Sondre Lerche

Lucifer
Venus at the break of dawn
I'm terrible with names
But I love this oneLucifer
I indulge the dusk at times
There is no finer side
Than that of you tonightEverybody puts a price on you
Of course they do
All I wanna do is strike a match
Set fire to youI don't mind it if we cannot speak
I don't care much if we can
When you're with me I don't understand
Why on earth we would ever speak againLucifer
I prefer the simple life
Although we'll never be
Quite off this earthLucifer
I tried so hard to capture you
I made a song and dance
Of the most natural eventsEverybody looked you up and down
With sorted plans
All I wanna do is strike a match
And shake the groundI don't mind it if cannot speak
I don't care much if we can
When you're with me I don't understand
Why on earth we would ever speak againMeddling with Lucifer - with Lucifer - with Lucifer
Meddling with Lucifer - with Lucifer - with Lucifer
Meddling with Lucifer - with Lucifer - with Lucifer
Meddling with Lucifer - with Lucifer - with LuciferI don't mind it if we cannot speak
I don't care much if we can
When you're with me I don't understand
Why on earth we would ever speak again (x2)
