Advisory - the following lyrics contain explicit language:

[Johnny Rain]  
Seems like,  
Honesty aint good enough these days  
Its probably good you left me babe  
Cause you probably would've left anyway  
But I loved you,  
Couldn't stand to see you walk away from here  
and go be with another man  
I loved you,  
Even when you gave up on me  
I still tried and tried and tried over again But now its your loss,  
I'm done crying, are you crazy?  
(now it's your loss)  
Got a new chick, maybe one or two  
(your loss)  
When I drive by with my new baby  
(now it's your loss)  
Don't you try to come through  
Cause I'll be popping tags,  
with a few girls actually  
So when he cheats on your ass  
don't come running back to me  
(your loss)  
(now it's your loss)  
It's always hard to look at your reflection in The Gray Room Ooohwoah! but I still do  
And you know, it's gonna kill you  
Inside, inside,  
And I'll be doing me, you'll be doing you  
Now look who is free, you don't have a clue  
Ohhh, This is so frustrating baby  
This the last song I'm making baby, about you  
Ohhhh! Now its your loss,

I'm done crying, are you crazy?  
(now it's your loss)  
Got a new chick, maybe one or two  
(your loss)  
When I drive by with my new baby  
(now it's your loss)  
Don't you try to come through  
Cause I'll be popping tags,  
with a few girls actually  
So when he cheats on your ass  
don't come running back to me  
(your loss)  
(now it's your loss)

It's always hard to look at your reflection in The Gray Room[girl crying voicemail][Emerson Windy]

For you I cry no more tears,  
So no more tears will be cried for you  
And let me tell you something else i knew,  
That we were gonna combust and it was true  
The writing was on the wall, I tried so hard,  
Yupp I tried so hard just to make it through  
Maybe one day I'll face the fact  
That it was never gonna be me and you  
So, I'ma move on  
to the next one, yupp I'm gone  
And she's wearing a thong,  
So like a light switch, I'm turned on  
Emerson's windy,  
So I'm where the wind blows in my city  
Blow me next to a lady that's pretty,  
Just forget me, what an ending[Johnny Rain voicemail][Johnny Rain]  
Ohhhwahh, ohhhwahh, Ooohwoa,  
Ohhhwahh, ohhhwahh, Ooohwoa,  
Ohhhwahh, ohhhwahh, Ooohwoa,  
Ohhhwahh, ohhhwahh, Ooohwoa,  
[2x]Bitch you lost your love  
You lost your love,  
Bitch you lost your love  
You lost your love,  
It's always hard to look at your reflection in The Gray Room
