

Chase Our Love

Chris Brown

We can jet, believe it
I know that you won't
And yes, there's a feelin'
We both need to know Let us start now
It's that time
So let's travel
And see the light (And I'm)
Gonna take you out
Anywhere you wanna go now
(If you ride)
To the town
Where we both can party now Drink in London
Dance in Paris
Let's chase our love
Let's chase our love Shout real loud now
And let them hear us
Let's chase our love
Let's chase our love Tonight, night, night, night
Night, night, night
Tonight, night, night, night
Let's chase our love
Let's chase our love Tonight, night, night
Tonight, night, night If it's evening
We'll party til' morning Let us start now
It's that time
So let's travel, see the light
I'll watch you shine Drink in London
Dance in Paris
Let's chase our love
Let's chase our love Shout real loud now
And let them hear us
Let's chase our love
Let's chase our love Tonight, night, night, night
Night, night, night
Tonight, night, night, night
Let's chase our love
Let's chase our love Tonight, night, night
Tonight, night, night
