

# Birds Flew Backwards

## Doves

The car zoomed past, I watched the passers by  
Birds flew backwards, yet still arrived  
Winter seemed to linger  
But now the swallows have arrived  
Won't be long until summertime  
Walked through woods to the power lines  
Saw birds fly backwards in perfect line  
Oh, winter seemed to melt now  
Now the swallows have arrived  
Can't be long 'til summertime, summertime
