I Am a Little Explosion

sElf

hello
let's play some music
follow melet's make some noise with some pots and pans - repeat 8xwhere did you go
where could you be
i better find a way to write back home
i feel the flow of electricity
better call before the fuse is blown- chorus -
i am a little an, explosion
i am that's all i am explosionyou once were told you once were free
i drew a map my destinations unknown
morticians faint whenever you breathe
i'll see the light before i'm buried and bones* repeat chorus *starlight blinding
i will go away
same old rigmarole
i will explodeshe's in my shadow
i avoid the street lights
she loves her sweater
clothing is her birthright
she's heavy metal
moshing in the moonlight
she writes me letters
poetry keeps her up nights
* repeat *
