

You Can't Stop Me

Guano Apes

Someone is coming out to see the light of our destination
A maniac neurotic fool who wants to jump off the isle
How can you know that I'm the one
Who lives the maddest vacation
Another road, another try
Where's the difference
Tell me right

You can't stop me
To love the world with all its lies
(keep it to myself, keep it to myself)
You can't stop me
I'm close enough to kiss the sky
(keep it to myself, again)

Why are you coming out to see the road of last destination
I won't look back for the shadows
They're growing up to me
We're trapped in this song
So we leave them to head our salvation
Another you, another me
Where's the difference
Tell it to me

You can't stop me
To love the world with all its lies
(keep it to myself, keep it to myself)
You can't stop me
I'm close enough to kiss the sky
(keep it to myself, again)

I'm just another rope cutter
Life stopper
Running to the isle
(coming to myself)
Rope cutter
Life stopper
Running to the cosmic waves
(coming to myself)
Rope cutter

Life stopper
Running to the isle
(coming it to myself)
Rope cutter
Life stopper
Running to the cosmic waves

Heyyyy

You can?t stop me
To love the world with all its lies
(keep it to myself, keep it to myself)
Won't you stop me
I?m close enough to kiss the sky
(keep it to myself, again)

I'm just another rope cutter
Life stopper
Running to the cosmic waves
