

Dark Place

[Barton Carroll](#)

Take me to a dark place
I've never been out of this town
Might as well go to a dark place
Lock me in the closet
Put the key at the foot of the door
So I can get it if I need it
I've never been here before
Kinda diggin' the experience
Kinda diggin the space
Kinda diggin diggin my own hole
With dirt on my face
And my foot chained to a pole
Some boys chase the girls
And drink Whiskey and Wine
Gonna sit here in the dark and dirt
And laugh at my former life

Take me to a lighter place
So light that I can't see
Like the sun or a bolt of lightning
Something that will blind me
Take me to see night
Take me to see God
Take me to someone's bed
And make me do my job
Take me to a Dark place
I've never been out of this town
Might as well go to a dark place
Lock me in the closet
Put the key at the foot of the door
So i can get it if I need it
Never been here before
Kinda diggin' the experience
