

Travelin' Light

Widespread Panic

Travelin' light, is the only way to fly
Yeah, travelin' light, ooh, just you and I We're so down to ecstasy
Way on down and our own way
Travelin' light, it's the only way to fly Yeah, travelin' light, ooh you can catch the wind
Travelin' light, you better let your mind and body bend We step on down to paradise
Maybe once, now maybe twice
Travelin' light, oh, you can't be wrong Light
Ooh, you can catch the wind
Like travelin' light
Better let your mind to and pretend We're so in down to ecstasy
Way on down and our own way
Travelin' light, oh, it's the only way to fly, fly
