

Drifts

New Model Army

You came to me because I'm not like you
I came to you because you're not like me
But there's a reef of jagged rocks
Between the shore line and the sea
Yes I forget the things that you cannot forget
You say the things that I will not say
And there's a smear of blood in the sky
Between the night time and the day
Stop blowing away
Find a way forward
The stars and winds are powering on the woods
That move in circles around the sky
You needed me because I'm not like you
Yes I needed you because you're not like me
And waves will forever break
Between the shore line and the sea
Stop blowing away
Find a way forward
The stars and winds are powering on the woods
That move in circles around the sky from above us tonight
