

The Longest Road

Pinmonkey

Put on your high heeled shoes and that brand new dress you found

Baby let's go into town we can take my Dad's old Dodge

I've already bought the gas to get us there and backWe may never get ahead but we don't have to move so slow

We can take the fastest lane down the longest roadYou say this place has got you down and there's nothin' here
to do

Oh but baby that's not true, we can hear the alley cat choir

Watch the parade of empty fields life is a circus spinning right at our heelsWe may never get ahead but we don't
have to move so slow

We can take the fastest lane down the longest roadBefore this quarter moon is spent we'll let these razor high
beam lights

Cut us a slice of Friday night but baby don't you act so shy

Slide over close to me we won't always feel this free, yeahWe may never get ahead but we don't have to move
so slow

We can take the fastest lane down the longest roadBaby down the longest road
Baby down the longest road
