

Way Back

Reel Big Fish

Going back to the way
Going back to the way
That it used to be
When things were much betterGoing back to the way
Going back to the way
That it used to be
When we were togetherIt's been so hard for me
To take all the things that come my way
It's been so hard but know I say
We areGoing back to the way
Going back to the way
That it used to be
When things were much betterGoing back to the way
Going back to the way
That it used to be
When we were togetherGoing back to the way
Going back to the way
That it used to be
When things were much betterGoing back to the way
Going back to the way
That it used to be
When we were togetherI've been alone too long
There's no one else I'd rather see
Nothing's more right
Than you and me
So we'reGoing back to the way
Going back to the way
That it used to be
When things were much betterGoing back to the way
Going back to the way
That it used to be
When we were togetherGoing back to the way
Going back to the way
That it used to be
When things were much betterGoing back to the way
Going back to the way
That it used to be
When we were together
