

# Alive

## Dirty Vegas

Through these eyes I see, there's a place for me  
And life is full of questions that keeps me alive  
Through these veins I feel, a certain kind of thrill  
And I'm flying in all directions that keeps me alive  
Would you sell the story? Drown in all the glory  
That surrounds you, surrounds you  
Won't you shelter me? Keep me company  
As I'm searching for protection to keep me alive  
With these hands I feel, a certain kind of thrill  
And I have in my possession what keeps me alive  
Secrets I have found, it turns my head around  
It's what keeps me alive, it's what keeps me alive  
From these eyes I see, there's a place for me  
And life is full of questions that keeps me alive  
From these veins I feel, a certain kind of thrill  
And I'm flying in all directions that keeps me alive  
It's what keeps me alive, it's what keeps me alive  
And I'm flying in all directions, it's what keeps me alive  
It's what keeps me alive, it's what keeps me alive  
And I'm flying in all directions, it's what keeps me alive
