

Always n Forever

The Orwells

Staying up, looking at the stars
Making out on the hood of my car
I know this canâ€™t last forever
At least we spend every night together.
Gave you my heart, yeah, I gave you a ring
Weâ€™re going steady since last spring
Would you be mine, can I have this dance?
I ainâ€™t her type, but she gave me a chance.

Gone my way. Gone my way.
Gone my way. Gone my way.

Laying down with the girl of my dreams
Skin sticking to the leather seats
If it ends itâ€™ll be so tragic
Itâ€™s getting cold, here, take my jacket.

Iâ€™m going forward, I donâ€™t wait up
Who wouldâ€™ve though Iâ€™d run out of luck?
Came around, but then a little too fast
Chill off the love in a motorcycle crash.

Gone my way. Gone my way.
Gone my way. Gone my way.

Gone my way.
Gone my way.
Gone my way.
