

# Dregs

## Bass Drum of Death

If you feel as a grey sad beetle  
Got to crawl in the holes of your town  
Cause everybody's starrin'  
Just starrin' down on you That's what they always do  
If you feel as their only problem  
Got to learn not to care, take your time  
When everybody's starrin'  
Just starrin' down on you That's what they always do  
Cause they are jealous of you You're different and so beautiful  
Don't you know If you feel as a pale tiny beetle  
Got to hide in the shade in the streets  
Cause everybody's starrin'  
Just starrin' down on you
