

All About Your Heart

[Mindy Gledhill](#)

I don't mind your odd behavior
It's the very thing I savior
If you were an ice cream flavor
You would be my favorite oneMy imagination sees you
Like a painting by Van Gogh
Starry nights and bright sunflowers
Follow you where you may goOh, I've loved you from the start
In every single way
And more each passing day
You are brighter than the stars
Believe me when I say
It's not about your scars
It's all about your heartYou're a butterfly held captive
Small and safe in your cocoon
Go on you can take your time
Time is said to heal all woundsOh, I've loved you from the start
In every single way
And more each passing day
You are brighter than the stars
Believe me when I say
It's not about your scars
It's all about your heartLike a lock without a key
Like a mystery without a clue
There is no me if I cannot have youOh, I've loved you from the start
In every single way
And more each passing day
You are brighter than the stars
Believe me when I say
It's not about your scars
It's all about your heart
