

# Tears

## Biel Ballester Trio

[Akcent:]

I can't find the words to express my pain  
Everything I gave you it was all in vein  
All the love we had washes with the rain  
Try to break the clouds and bring back the sun  
Spread away the shadow  
Let's have some fun  
Wipe your tears away  
Your gonna have to run

Why you try to say goodbye  
Please don't start to cry  
You will find the answer  
Leave the past behind  
Begin to free your mind  
Nothing can go wrong

[Roller Sis:]

Why you try to say goodbye  
Please don't start to cry  
You will find the answer  
Leave the past behind  
Begin to free your mind  
Nothing can go wrong

[Akcent:]

Let's go back in time and forget our tears  
Let me hold your hands  
Send away your fears  
Try to understand  
I won't let you fall  
I will find a way to release your heart  
I will make you smile just like from the start  
We are meant to be and never stay apart

Why you try to say goodbye  
Please don't start to cry  
You will find the answer  
Leave the past behind  
Begin to free your mind

Nothing can go wrong

[Roller Sis:]

Why you try to say goodbye  
Please don't start to cry  
You will find the answer  
Leave the past behind  
Begin to free your mind  
Nothing can go wrong

[Akcent:]

Why you try to say goodbye  
Please don't start to cry  
You will find the answer  
Leave the past behind  
Begin to free your mind  
Nothing can go wrong

[Roller Sis:]

Why you try to say goodbye  
Please don't start to cry  
You will find the answer  
Leave the past behind  
Begin to free your mind  
Nothing can go wrong
