After The Fall

Metro Station

we skipped class and I
I guess our heads needed a break
but our bodies stayed busy
i know that you still miss meI give and you take it
two summers spent wasted
should we give up or save it
will this make sense at all
after the fall
after the falldid you have to turn your back
when forever didn't last
two years and six months
have you even looked back once
your body felt like summer
but we spent the fall apart
and we'd know by december if the cold could rememberi give and you take it
two summers spent wasted
should we give up or save it
would this make sense at all
after the falli give and you take it
two summers spent wasted
should we give up or save it
would this make sense at all
after the falli miss you
is it still okay to say it
i miss you
i know that it's too late but
we all stay in to hide the seasons
feel the same for different reasons
we lost the road but i prefer it
we're used to bein so discouragedi give and you take it
two summers spent wasted
should we give up or save it
will this make sense at all
after the falli give and you take it
two summers spent wasted
should we give up or save it
will this make sense at all
after the fall
