Life Goes On

Satsang

I've been calling on the things that we are made of
to find the thing that we are afraid of
and to wash them all away

So we have what we'll say this roots
and we'll deep in
I say we must stay and sleep with it
and if it comes our day

we don't sleep when I say this cycle madly needs you
participation it will feed you
say you are the one

and come now when I'll say the music join narrow
the destination come clearer
and we've only just begun

and are you own take the
time that I've been given
I say you've wasted on the things that don't mean nothing
and we'll face demons and we'll testify it all wrongs
and we'll rectified in safe

and we'll pray
life goes on
yeah we'll pray
life goes on

This hands
well I say this hands were build to for greatness
so it's yours so you'll take this
so it'll not squander it at all

and if you if you lose balance I'll help you
I said I will wait for someone else too
I said I promise you you wont fall

and we'll build
what I'll say it's a place for them to lean on
to come and too to feel clean on

and we'll take them there today

we'll raise up said the vibration till we heal them
we stay tight in so we can feel it
and we'll tell of the way

and are you own take the
time that I've been given
I say you've wasted on the things that don't mean nothing
and we'll face demons and we'll testify it all wrongs
and we'll rectified in safe

and we'll pray
life goes on
yeah we'll pray
life goes on

I say redemption is a cup that we'll drink from
cause it was made for all and just all

I say redemption is a cup that we'll drink from
cause it was made for all and just all

I say hear who you are
say what you feel
cause it don't mind those who matter don't mind
don't mind

I say hear who you are
say what you feel
cause it don't mind those who matter don't mind
don't mind noooo

and are you own take the
time that I've been given
I say you've wasted on the things that don't mean nothing
and we'll face demons and we'll testify it all wrongs
and we'll rectified in safe

and we'll pray
life goes on
yeah we'll pray
life goes on
