Moon Rocks

[Talking Heads](#)

Flying saucers, levitation, yo, I could do that
Get ready for heavy duty, go on, give it a chance
Give it a chance, give it a chance
I saw your hair start to curl, so get up
Write it down, you better wait for a while
So take your hands out of your pockets
Get your face adjusted, I heard it, somebody lied
And I'm staring out the window
Gonna let this thing continue, in its natural time
Roundheads, squareheads, get settled in
You can hear my belly rumble
There's a voice that starts to mumble
Woo, it's startin' to sing
Protons, neutrons, I ate a rock from the moon
Got shocked once, got shocked twice
Let's see what it can do
Man in the moon, the moon in the man
I got a rock in my throat, upside, upside down
My tummy start to talk, what it say?
Gonna rock it 'til I shock it
Gonna kick it 'til I drop it
Woo, love at first sight
You can kick it, you can poke it, ooh
I think you broke it, what about that?

Skin from a snake, blood from a stone
You know, that ain't no lie
I got hundreds of expressions
Try to make a good impression
Woo, right between the eye
I don't mind, let me go
[Incomprehensible], I don't know
Let me be, why not stay?
I feel numb, let me play
I got a wild imagination
Talkin' transubstantiation
Any version will do
I got mass communication
I'm the human corporation

I ate a rock from the moon
Moon in the rock, rock in the moon
There's a moon in my throat
You might think I'm wasting time
You might laugh but not for long
Hey! I'm workin' it out, work it out
I don't mind, let me go
Sounds inside, I don't know
Let me be, why not stay?
I feel numb, let me play
