Diggin' a hole, just one more time until I score this
Strike rich on diamonds, iron, gold and build our decked out fortress
All we need is just a bit of luck to not abort this
Runnin' low we can't afford this

Dungeons under here
Just the last time a group of creepers came out over there
Blew up a vein of diamonds then chased us all out of there
A spider army dropped down from the roof into our hair
Ran back to fresh air

This ain't your land, you're gonna get banned
So you know, hey,
When you plan to go, hey
When you're diggin', you'd better listen
So you know, hey,
When they gonna show, hey,

Makin' sure you're all prepared before you go

Ay, sexy piggy
Dig, dig, dig, dig, diggin' Minecraft style
Ay, sexy piggy
Dig, dig, dig, dig

Back on the ground we layin' redstone through the forest
To wire our monster traps so all the zombies will ignore us
We built this city block by block and we don't welcome tourists
But they still come lookin' for us

Like a sauna here

We built a portal to the nether lava everywhere
Zombie pigs and ghastrs flyin' all around so tread with care
Best you craft some armor and exchange that for the clothes you wear
While you're under here

Lava flowin', those lakes are glowin'
Down below, hey
You should probably go, hey
But you're ready, your arms are steady,
Grab your bow, hey
Shoot the fatal blow, hey

Run away now 'cause you missed you were too slow

Dig some more
Until you hit the core
Diamonds, diamonds baby that's what we're all lookin' for
Dig some more
Until you hit the core
When you find 'em baby then you know it's time to soar
Ain't a game we're playin
