

# Take Me Home

Sophie Ellis Bextor

Heaven, heaven, heaven  
Take me home, take me home  
I know another place to be  
Take me home, take me home  
You deserve a girl like me  
Come on, I know somewhere  
You can unwind  
We can just disappear  
Now's the time  
Take me home, take me home  
Only fair I get my way  
Take me home, take me home  
Oh, it's going to happen anyway  
I know what's good for you  
Don't pass me by  
I will look after you  
You'll be fine  
I'm in heaven, I'll show you heaven, it's so much heaven  
Let's make a move, let's leave this world behind  
I know you approve by the look in your eyes  
I'm in heaven, I'll show you heaven, it's so much heaven  
Take me home, take me home  
I will show you where to walk  
  
Take me home take me home  
Baby, let the people talk  
We'll get away from here  
I'm reading your mind  
We can just disappear  
Now's the time  
I'm in heaven, I'll show you heaven, take me home  
Oh, take me home, take me home  
In this moment, one night with you  
All alone, with nothing to lose  
Let's make a move  
Let's leave this world behind  
I know you approve  
By the look in your eyes  
I'm in heaven, I'll show you heaven, it's so much heaven

Take me home, take me home  
Now's the time to follow me  
Take me home, come and live what ought to be  
Take me home, take me home  
Take me home, take me home  
Take me home
