Back To Life

Colton Dixon

I feel you break through the night like a flame in the dark
I feel my whole world shake as You awaken my heart
Only You can resurrect the part of me that's died
Only You can bring us back to lifeBlack, I watched it all fade to black
Yeah this is where my heart was at
Broken and bleeding
Red, every part of me was dead
No part of me innocent
I was desperately needing
Someone to follow
Someone to save my soul
I need a hero, I need a heroI feel You break through the night like a flame in the dark
I feel my whole world shake as You awaken my heart
Only You can resurrect the part of me that's died
Only You can bring us back to lifeYou showed up in the nick of time
I didn't think I'd survive
Now my heart is beating
You, everything points to You
I could try to save myself but it's no use
Without You I'm sinking
I'm down to zero
With a God-shaped hole
I need a hero, I need a heroI feel You break through the night like a flame in the dark
I feel my whole world shake as You awaken my heart
Only You can resurrect the part of me that's died
Only You can bring us back to lifeRevive me, revive me
Bring us back to life
Bring us back to lifeI'm down to zero
With a God-shaped hole
I need a hero, I need a heroI feel You break through the night like a flame in the dark
I feel my whole world shake as You awaken my heart
Only You can resurrect the part of me that's died
Only You can bring us back to lifeRevive me, revive me
Bring us back to life
Bring us back to life
Bring us back to life
