

# Way Down

**John Prine**

Way down  
Way down, it must be  
I can't stop this misery  
It must be way down  
Spring is just a smile away  
Laughing at a summer day  
Turn around, look at fall  
Winter, hear my lonely call  
Way down  
The air is thin and the sky is fat  
I'm gonna buy me a brand new hat  
Wear it out and go insane  
Christ, I hope it never rains

Way down  
Thought I saw a neon sign  
Flash my name with the time  
Probably didn't see a thing  
Crazy dreams and a broken wing  
Way down  
How ya' gonna get sunshine  
Peeking through Venetian blinds  
Don't you know all that fear  
Begins and ends the same place  
Here way down?
