

Starlight (Feat. Myles Kennedy)

[Slash](#)

In the distance light years from tomorrow
Far beyond yesterday
She is watching, heart aching with sorrow
She is broken is broken, as she waits
Hoping when all is said and done we can learn to love and be as one Oh Starlight, don't you cry we gonna make
it right before tomorrow
Oh Starlight, don't you cry we're gonna find a place where we belong (where we belong)
And so you know, we'll never shine alone There are shadows sleeping on the horizon
Leave us scared and so afraid
As the fall out of a world divided
It brings her tears and so much pain
And so we take cover from the dark
Hoping to find where we can start Oh Starlight, don't you cry we gonna make it right before tomorrow
Oh Starlight, don't you cry we're gonna find a place where we belong (where we belong)
And so you know, you'll never shine alone
Starlight we'll find a place where we belong You will see as the mountains fall and turn to dust
There's one thing that can't change
I believe there's something within each over us that always says
That will always remain as long as love never pains Oh Starlight, don't you cry we gonna make it right before
tomorrow
Oh Starlight, don't you cry we're gonna find a place where we belong (where we belong)
And so you know, you'll never shine alone
Starlight we'll find a place where we belong (we belong) She is watching, heart aching with sorrow
She is broken is broken, as she waits
