Start Angry... End Mad

Moneen

Screw you and die I hope you burn
You think you're worth more than you earned
You're nothing, you're worthless, except for these verses
Out with the new and with the oldDie, die, die
Die, die, die
Die, die, dieHonesty makes you do the strangest things like act angry
It's your life, your move, your chance to make good of the bad
Can't hide the fact that you still lied to us, you lied to them
And put the past behind, make it good there's one more thing to saySay it, no, say it, no
Say it, no, say it, noTwo years is a long time to pretend
Now we start again
Two years is a long time to pretend
Now we start again
We've got to stay until the end, no, we've got to say it
Two years is a long time to pretend, two yearsSay it, don't act surprised when we
Say it, don't act surprised when we
Say it, don't act surprised when we
Say it, don't act surprised when we
Say it, don't act surprised when we
Say it, don't act surprisedTwo years is a long time to pretend
Two years is a long time to pretend
Two years is a long time to pretend
Two years, two years
