

Starting Over

Audio Adrenaline

Look at your face
Doesn't shine the way it used to
Look at your eyes
They don't sparkle anymore
Look what you've done
You've ruined it for everyone
Who told you that you had to lose your innocence
I, I'm starting over
I, I'm starting over
Well, tell me how
I get back to my childhood
I used to think
It was so naive, I was so naive
Look what I've done
I've ruined it for everyone
I should've held on harder to my innocence
I, I'm starting over
I, I'm starting over
It's never too late

It's never too late
For starting over
Reclaim your innocence
Start over
Reclaim your innocence
Reclaim your innocence
Start over
Start over
(I can begin, yeah)
I, I'm starting over
(I can begin, again)
I, I'm starting over
(Starting over, starting over)
It's never too late
It's never too late
For starting over
(Starting over)
Look at your face
It doesn't shine the way it used to
