

Cry (Acoustic)

Zug Izland

Our fire will rise
Ringmaster's eyes
Funhouse will rock
Those boys don't lie Immortal fear
It's voice so clear
Through broken walls
Your screams I hear Cry little sister
Come, come to your brother
Come sing for your sister
Love is with your brother Clown masquerade rich boys look up
When will they learn
This loneliness? Temptation's heat
Milenko's word
Deep in your soul
You cannot lie Come, come to your brother
Come sing for your sister
Love is with your brother Our shangrila
You can't forget
Always so close
Come to us now Cry little sister
Come, come to your brother
Come sing for your sister
Love is with your brother Cry little sister
Come, come to your brother
Come sing for your sister
Love is with your brother
Cry, little sister
