

# Don't Like

[Klank](#)

Don't like the way you make me feel  
Deep down inside  
Don't like the words you speak cause it's  
No truth only lies ... only lies  
You don't know me  
You can't even show me  
Respect that is due me  
So you can just sue me  
Don't like the way you scream when  
You think that you are right  
Don't like the way you push when  
You just wanna fight  
Don't like the way you put your finger in my face  
Don't like you anymore so get out of my space  
You don't know me  
You can't even show me  
Respect that is due me  
So you can just sue me  
I tried to show you  
Everything that's real  
I tried to tell you  
Tell you how to feel
