

Behind Closed Doors

Peter Andre

You think you've got me figured out
You think you know what I'm about
Don't believe what you read
Half of the things you see Thought you'd figured this out by now
(And who would have known)
That our life could be so exposed?
Where we will end up nobody knows
What do we know? What? What do we know? Behind closed doors
Behind closed doors
You can't imagine
Behind closed doors
Is where it happens Behind closed doors
That's where the truth is
That's where the life is
That's where I'm hiding Behind closed doors
(Behind closed doors)
Behind closed doors
(Behind closed doors)
Behind closed doors There's a man who lives in the street
Tryin' to find his way
(Whoa oh)
Then I figured he'd found the best way to escape
(Whoa oh)
His addiction cost him everything
Guess he thought it helped him hide the pain And who would have known
Has a wife, two kids and a three story home
Got all these things yet he's still alone
What do we know, what do we know Behind closed doors
(Behind closed doors)
Behind closed doors
(Behind closed doors)
Behind closed doors
(Behind closed doors) That's were the truth is
That's were the life is
And you try and you try
But no one hears you cry Deep inside all you hope is the truth
But no mind to the lies
Keep you rising for prising
And then all you have is you Behind closed doors

Behind closed doors Behind closed doors
(You can't imagine)
Who would have known
Behind closed doors
(You can't imagine) Nobody knows
Behind closed doors
That's where the truth is
That's where the life is
That's where I'm hiding Behind closed doors
(Behind closed doors)
Behind closed doors
(Behind closed doors)
Nobody knows
Behind closed doors
