# Wolves In Sheeps Clothing

## Sinai Beach

To the Pharisees of the twenty-first century
To those who know only religious ceremonies
Crooked liars behind pedestals
Got bibles in their hands but know nothing of what it holds
Stand on your stage, wave your fist in the air
Move your lips
Move your lips to speak of your own man-made teachings, age old traditions
Age old traditions, is it what you hold close to your heart?
Old testament, old covenant is what you preach
That broke when the body of Christ broke
Did you forget, or did you just skip through that part
That most crucial part
The part that changed the course of history.
