

# Atom Smasher

## Dark Soho

Welcome to the brave new world  
The Future's here or haven't you heard?  
The sons of man have fell from grace  
Till the Smasher comes to save his race Here it comes, there it goes  
Just a flash in the sky  
Atom Smasher, here he comes  
Better run for your lives He is the hero of the atom age  
Born in a test tube, raised in a cage  
A reaver king, his throne defiled  
Roaming the streets to the call of the wild As upstarts strive to rule the world  
Against them chaos legions hurled  
The Smasher's force has swept the land  
Again begins the dawn of man
