

# Save Our Love

Noel Gourdin

By: Scott Cutler/Ann Preven/Eddie Chacon

Save our love (x3)  
Do you remember  
All of the joy we found last spring  
Oh baby  
So good together  
We never worried about a thing  
No no  
But now I see such a distance in your eyes  
And the seasons come between us  
I can't find my paradise  
Without your love I'm a little child lost in the world  
Mmm, come on baby  
Say it's not too late  
I know there's time enough  
Help me darling  
We got to save our love  
Save our love  
Stay close beside me  
'Coz the sky is stormy now  
Come on baby, come on and save our love  
Save our love  
Save our love (x3)  
Walking in circles  
Thinking if all we had was gone  
Oh yeah  
My life would be worthless  
Never known emotions could run this strong  
Oh, you don't know  
What went on inside of me  
When you said that you'd be leaving  
'Coz I hurt you selfishly  
Without your love I'm as hopeless  
As the earth without the sun  
Oh come on baby  
Say it's not too late  
I know there's time enough  
Help me darling  
We got to save our love

Save our love  
Stay close beside me  
'Coz the sky is stormy now  
Come on baby, come on and save our love  
Save our love  
Save our love (x3)  
So let's not fall apart  
Like all those other lovers  
I know if we trust  
Love will leave it up to us  
Oh  
Oh, say it's not too late  
I know there's time enough  
Help me darling  
We got to save our love  
Save our love  
Stay close beside me  
'Coz the sky is stormy now  
Come on baby, come on and save our love  
Save our love  
Say it's not too late  
I know there's time enough  
Help me darling  
We got to save our love  
Save our love  
Stay close beside me  
'Coz the sky is stormy now  
Come on baby, come on and save our love  
Save our love  
Stay (stay) (x3)  
Stay  
(ad lib to fade)
