

# Too Much (From "Zapped")

[Zendaya](#)

Baby we're too much, much to handle  
Understand it when we turn it up  
Too much, much to handle  
Yeah we're just too much (Come on)  
Steppin' out the door you already know its on like oh yeah.  
Brush up on the scene like we're right up out the magazine like oh yeah  
so fly from head to toe  
Keep yours, we got our own  
Can't tell us nothin' no  
do what we want like oh yeah  
Cause we always get it poppin' poppin'  
That's that reason why you talkin' talkin'  
You say we killin' it? stop stop it.....  
The beat get hot, drop it! Baby we're too much, much to handle  
Understand it when we turn it up  
Too much, much to handle  
Yeah we're just too much  
We're too much, much to handle  
Understand it when we turn it up  
we're too much, much to handle were just too fun here we go  
We're too much, much to handle  
understand it when we turn it up (ha ha) (woo)  
Too much, much to handle (hey)  
Yeah we're just too much (one time now) We're too much, much to handle  
Understand it  
Yeah we cant be touched (get funky with it) (hey hey hey)  
Too much, much to handle (hey)  
Yeah we're just too much (too much)
