

Small

Livvie Forbes

Small:

Sometimes when I'm small

I like to watch the nights pass as the world watches me

Lights tangledÂ

And the life that you liveÂ

And that's how I hear the seaÂ

I'll run awayÂ

For years at a time

And that's when I'll tell you I'm fineÂ

Sometimes when I'm small

I like to watch the nights pass as the world watches me

Sometimes when I'm small

I like to watch the nights pass as the world watches me

I am freeÂ

Well the world as we know likes to sing a little differentÂ

Maybe in another key?Â

And the moon that we know the science of it all is that it's no longer made of cheeseÂ

And the princess in the tower watches over these fights and wishes that she could be freeÂ

Well I'm free

You can grab my beating heartÂ

When I come up from the ground

My brain of positivityÂ

Will catch and then be foundÂ

Sometimes when I'm small

I like to watch the nights pass as the world watches meÂ

Sometimes when I'm small

I like to watch the nights pass as the world watches me
